

ActiveGuard® Security and Compliance Platform

Patented, Cloud-based Managed Security Services Platform

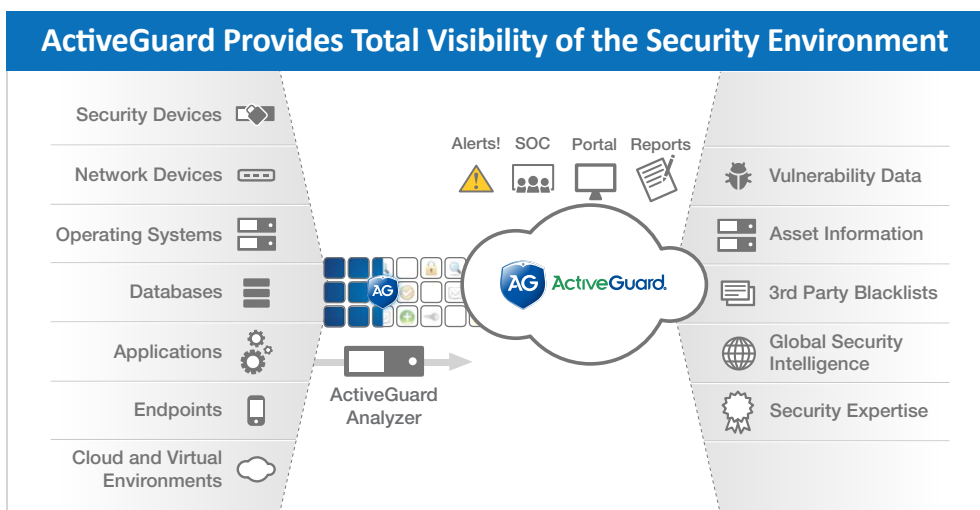

The patented, cloud-based ActiveGuard Security and Compliance Platform is the technology behind NTT Security Managed Security Services:

- Managed Security Services
- Log Monitoring
- Log Management
- Cloud Security
- Compliance Services
- Vulnerability Management
- Virtualization Security
- Security Device Management

ActiveGuard is the most advanced data collection and correlation engine available. With unmatched client service and technical innovation, the ActiveGuard Security and Compliance Platform is the industry's most capable security information and event management service on the market. The NTT Security technique of managing and classifying data and the way data is reported separates NTT Security from the competition.

- Industry and compliance reporting and metrics
- User and activity monitoring and reporting
- Industry, identity and asset awareness
- Built-in heuristics and anomaly detection algorithms
- Over 200 supported devices

NTT Security puts clients' needs first, providing tailored solutions for each unique environment. We can co-manage, manage and/or act as an advisor to technical staff to address questions, delivering

security response and reporting needs for compliance and overall security posture for:

- Financial Services
- Healthcare/Medical
- Retail
- Manufacturing
- Technology
- Government
- Food/Hospitality
- Leisure/Recreation
- Utilities
- Education

The ActiveGuard Security and Compliance Platform combines people with services to help with risk, information, compliance and security management. NTT Security delivers relevant, intelligent security.

Features Include:

- Dedicated Service Delivery Managers
- Technical security and compliance experts to extend in-house staff
- Industry and compliance templates
- Highly configurable compliance platform with superior correlation
- Threat intelligence – with every level of service
- Templates or custom configurable
- On-demand web portal
- Evidence and Log Vault

ActiveGuard Security and Compliance Platform will make businesses more secure, more efficient.

A Partner You Can Trust

We don't believe that one size fits all. That's why we deliver a cybersecurity, risk management and compliance program that is as unique as your business. Our goal is to ensure that every organization develops the cyber resilience required to make the most of every business opportunity. We can provide the solution you need in the manner best suited to your specific situation and help you to avoid technical blind alleys, missed exits and roads that lead to nowhere.

The Full Security Life Cycle

NTT Security has created a Full Security Life Cycle model based on many years of providing efficient and effective security, risk and compliance services to organizations around the world. We deliver these services using local resources that leverage our global capabilities.

in both market-leading technology and delivering change, to reduce risk and make new implementations work seamlessly with your organization's business processes. Our security experts have the training and experience to ensure the right solutions are architected, configured and deployed to solve your security challenges.

Manage & Operate

High-performing security and compliance programs are built on processes and controls that are executed efficiently and consistently while producing the data necessary to monitor and manage their effectiveness within your organization. Effectively managing and operating the controls in your security and compliance program will increase your organization's understanding of your security posture, security and compliance exceptions, effectiveness of controls, and demonstrate cost-effectiveness to executive management.

Respond & Educate

Cyber resilience is based on the premise that incident avoidance is not always possible – you need to be ready and able to effectively respond to a security incident. Should the worst occur, our incident response team can be quickly engaged either remotely or on site. They will identify, document, contain and remediate a security incident to minimize the impact to your organization. We can also develop a comprehensive program for the security education of your organization.

About NTT Security

NTT Security seamlessly delivers cyber resilience by enabling organizations to build high-performing and effective security and risk management programs, with controls that enable the increasingly connected world and digital economy to overcome constantly changing security challenges. Through the Full Security Life Cycle, we ensure that scarce resources are used effectively by providing the right mix of integrated consulting, managed, cloud, and hybrid services – delivered by local resources and leveraging our global capabilities. NTT Security is part of the NTT Group (Nippon Telegraph and Telephone Corporation), one of the largest information and communications technology (ICT) companies in the world. For more information, visit www.nttsecurity.com.

The NTT Security Difference

We provide the necessary services across the entire information and communications technology (ICT) stack and throughout the Full Security Life Cycle. Our services portfolio covers every aspect of information security and risk management, from initial assessment through to strategic program planning, hands-on deployment and around-the-clock management and support. Service options include:

- Security Program Optimization and Enterprise Advisory
- Security Planning and Risk Assessment
- Risk and Compliance Management
- Security Solution Design and Integration
- Managed Security Services
- Cloud and Data Center Services
- Threat Mitigation and Remediation Strategy
- Incident Response and Forensics
