

An economic slowdown often results in fewer resources. For the gaming industry – already resource light – retaining adequate staff with specific skills to support mission-critical initiatives can be particularly challenging.

## SECURE THE INFRASTRUCTURE - MEET COMPLIANCE

Compliance mandates such as MICS and PCI DSS add another layer of complexity for the gaming industry, and meeting compliance for these regulations is not an option. **Outsourcing** to a managed security services provider can be just the solution to reduced budgets and reduced staff, and still allow casinos to be ready for the inevitable audits.

Solutionary helps casinos maximize security budgets by addressing multiple compliance regulations with the same effort.

MICS Req #	Req Topics	PCI Section #
1 - 4	Physical Security of Computer Rooms	9
5, 6 and 10-16	Access Control	7, 8
7 – 9 23, 24	<b>Logging and Log Monitoring</b>	10 and 11.5
40 - 44	Network Security	1, 2 and 11.4
45	Change Management	6
46 – 50	Remote Access	2.3 and 8.3
53, 54	In-house Software Development	6

Patented, subscription-based services delivered by industry-leading ActiveGuard® platform include security and compliance services:

- Security & Compliance Log Monitoring
- Security & Compliance Log Management
- Compliance Services
- Vulnerability Management
- Security Device Management

## KEY BENEFITS

Solutionary allows casinos to maintain a proactive information security posture in keeping with industry best practices.

- **Cost-effective; less resource drain**
- **Expert knowledge transfer**
- **Rapid, low-impact deployment**
- **Industry and compliance specific solutions**
- **Penetration Testing**
- **Managed Application Assessments**
- **Managed External & Internal Vulnerability Scanning**
- **Gap Analysis**
- **Correlated Scan Data**
- **PCI Remediation**
- **Audit Readiness**
- **Evidence & Log Vault**
- **Auto Ticketing**
- **Work Flow Management**
- **24/7 Support**
- **Security Consulting Services**
